REVERSE BEAVERTAIL

For those of you who prefer the style and towability of our inline/all-sport models, but need that little extra clearance to get you to your next riding destination, we have developed the "reverse beavertail" on our inline/all-sports. Tapering the framework upwards at the rear of the trailer, we've gained an additional 5" of valuable clearance, to keep you from "dragging bottom" as you leave the gas station and head to the trail.

▪ Extreme Weather Furnace/Cabinet Shown w/ Stereo and Boot Warmer
